

DURABLE. DEPENDABLE. DETERMINED.

D-FORCE

A NEW INNOVATION FROM VAREL

INNOVATION HAS NO LIMITS

D-Force delivers extended durability and increased penetration in the most challenging blast hole drilling environments. With a unique Sidewinder leg design, enhanced air flow system and patented HET-treated inserts, the newest innovation from Varel International is engineered for the highly abrasive and broken ground often found in gold bearing formations, as well as some copper and coal bearing formations. **D-Force: proof that innovation has no limits.**
